BUSINESS INTELLIGENCE

Have you come up with innovative and strategic ideas to improve and scale your business, but maybe don't know where to start? Or perhaps you have started executing new projects and strategies but have come across some unforeseen roadblocks, or have problems organizing all the requirements in each area. **EMPIST Business Intelligence** services is available to help you map out a successful path to meet business goals.

WHAT IS BUSINESS INTELLIGENCE?

EMPIST Business Intelligence is a consultative service that helps organizations map out their goals and address areas that need help with scaling. We work together with you to improve any inefficiencies, examine your business processes, and recommend solutions that will increase your overall productivity as well as ensure smooth operations.

BUSINESS INTELLIGENCE BLUEPRINT

✔ **Strategy**
Achieve your short and long-term goals with the help of quality professionals as a third-party voice to formulate strategic and sound decisions for your organization.

✔ **Development**
Through business development we work on the core of your organization. Here we develop your communication and business relationships by creating value to provide your customers, partners and markets.

✔ **Planning**
You've figured out what you have to do, so how do you do it? We help you create a vision and a plan to execute your goals, optimize operations and achieve success.

✔ **Consulting**
Our consulting services include, but are not limited to: Business Continuity Planning (BCP), Virtualization, Network Design and Integration as well as security services. We work with you to find and address any gaps and assist your internal team on large projects and troubleshooting problems.

OPTIMIZED EFFICIENCY

CLOUD-BASED COLLABORATION TOOLS

Planning and developing strategy can get complex, and it is essential to have a reliable system that keeps you organized and ensures productivity at an affordable cost. This kind of system is available through cloud-based, collaborative communications tools such as Office 365.

Office 365 (O365), as it relates to **Business Intelligence**, assists you in the implementation, migration of email, setting up SharePoint, improving security via the built-in 2 Factor Authentication capabilities, and other features like mobile device management (MDM). O365 offers a wide breadth of Microsoft tools from Word to OneDrive and allows for easy setup and management.

BENEFITS OF CLOUD-BASED COLLABORATION SOFTWARE

- ✔ Increased efficiency anywhere, anytime
- ✔ Easy and effective collaboration
- ✔ Seamless scalability
- ✔ Reduced IT costs (*no need to buy equipment!*)
- ✔ Guaranteed reliability

BUSINESS INTELLIGENCE BLUEPRINT

If you wouldn't jump into the ocean without first learning how to swim, you shouldn't take the same approach with your business goals. **EMPIST Business Intelligence** helps you architect structured processes and manage your goals with a tailor-made solution to enhance productivity and fill any gaps by creating middleware applications that integrate with other applications you are already using.

In today's economy, business leaders realize more than ever that people are their most important asset. They also understand that it is essential to have a collaboration solution that helps their employees be more productive and efficient. **EMPIST Business Intelligence** gives your organization both.

OFFICE 365 IS AN EFFECTIVE RESOURCE FOR INCREASING PRODUCTIVITY WITH EASY COLLABORATION.
